

Unit 0, Day 2:

ALL Homework and Assignment details can be found on our class WEBSITE:

www.iamamathperson.weebly.com That's I am a math person . weebly . com ☺

BOOKMARK the correct address!

View the embedded Planbook calendar. It can be a bit testy depending on your browser—there are other options for accessing it that always work:

1. Download the Planbook.com app to your phone or Go to Planbook.com
2. Choose Student View
3. For both options, sign in as a student. You use my email address:
cori.doherty@larchmontcharter.org and the code: MsCoriAlgebra

View your classes' homework by looking at the day that YOU HAD MATH CLASS.

It is easiest to switch the view to DAY view and check for the day you were in math class.

Homework is posted by 4:30p each day. If it is not there, and I did not post a late note, you are ON THE WRONG DAY.

You will have a homework assignment listed there in planbook. Your job is to find the assignment, visit the other indicated areas of the website and complete the task. Check the due dates as well.
